

POSTGRADUATE CERTIFICATE IN DANCE MOVEMENT THERAPY COURSE [PGC-DMT]

Visit Our Website
www.sha.edu.in

Course Overview :

Dance Movement Therapy (DMT) is an innovative and powerful form of therapy that utilizes movement and dance to promote emotional, physical, and mental well-being. This course helps you gain a comprehensive understanding of DMT principles, techniques, and their application in various therapeutic settings.

Sancheti Healthcare Academy (SHA):

Sancheti Healthcare Academy (SHA) is a dedicated centre for imparting knowledge in Healthcare Management, Hospital Management and Physiotherapy. It was established with an aim to provide the highest possible education in the Health and Welfare domain.

VISION:

To establish & provide the best possible education in Dance Movement Therapy (DMT) & enhance the physical & mental well-being of our community.

MISSION:

- Inculcating knowledge in individuals and creating a holistic healthcare environment for the advancement of physical and mental well-being.

USPs & Course Highlights

- International faculty and top Indian faculties offering a cross-cultural understanding of DMT
- In-depth theoretical and practical training in Dance Movement Therapy
